Welcome to Englerth Gardens

4652 Division Avenue, S.
Grand Rapids 8, Michigan

Greetings, Fellow Gardeners —

We are on the east side of the street at 4652 Division Ave., old US-131, three miles south of Grand Rapids city limits, which is the junction of 28th Street and Division Ave. Coming from the south, we are four blocks north from where the four-lane highway starts. If taking the new expressway, which is being completed to the west and parallel with our street, leave it at 54th or 44th, as we are between those two streets. Division Ave. is one-half mile east of the new US-131 expressway.

Please Read Before Ordering

POSTAGE: All orders for \$5.00 or over will be sent postpaid. With orders for less than that amount please include 50c for packing and mailing. No C.O.D. orders, please, as they add much to your cost and ours.

Michigan customers please include 4% sales tax.

We send freshly dug, blooming size plants, guaranteed to be true to name. If they do not arrive in good condition, do not return them, but give them the best possible treatment, and write us at once, indicating adjustment desired. Also, if there should be any error in labeling, let us know as soon as possible.

ENGLERTH SEEDLING

Daylilies (Hemerocallis)

Our 1962 Introductions

GOLDIE GAY. (Englerth) 35" M. Lovely medium yellow, slightly bitone, as ruffled and creped petals are Jasmine, according to Maerz & Paul, while ruffled, somewhat velvety sepals are Golden Glow. Throat is slightly green, there is some fragrance, and substance is marvelous. Scapes are erect with up to 32 buds; wide branching, low to medium **\$15.00**

WINGS OF GOLD. (Englerth) 38" M. A "What's THAT?" traffic stopper from the very first blooms. It is a complete self, of exceedingly bright Sunkiss Orange, according to M. & P. Flowers are large, sometimes measuring 10 in., ruffled, creped and gracefully reflexed. They are slightly fragrant and stay open late. Foliage is arching with scapes slender, up to 30 buds. See cover for illustration. **\$25.00**

Daylilies - (Hemerocallis)

The Daylily is the most versatile of perennials, and can be used in all parts of your garden, for bloom all through the growing season. They can furnish shades of yellow, orange and brown with your Iris in late spring. They can be planted all through the perennial border to furnish shades of cream and gold, the sunshine colors, during the entire season. They can make bold splashes of orange, flame and shades of red against evergreens or shrubbery where you wish to make an accent point. Or you may have a garden of Daylilies by themselves, in all their lovely shades.

CULTURE: The Daylilies will grow in any good garden soil and are very drought resistant. However, they do appreciate plenty of moisture and nourishment. They will grow and bloom in partial shade, but should have sun for half a day, as too deep shade will cause weak stems and fewer blooms. They should be left undisturbed over a period of years, as they do not give their best performance until the second or third year. So they should be spaced from two to three feet apart to permit increase in size of clumps. Spread the roots out well when planting, and firm the soil down well. Well-rotted manure or compost with bone meal will be appreciated if incorporated in the soil while planting, and peat moss is also found to be beneficial.

Our prices are for blooming size plants. Daylilies will be shipped in the spring, or in late summer and fall.

Daylilies ...

Unlabeled Daylily Collection

If you are not interested in names, but do want Daylily color all through the season, we will send you a collection of 12 fine Daylilies, all different, our selection and unlabeled, postpaid, for \$3.00. If you wish, and so state, you may have these all in shades of cream and yellow for the perennial border — otherwise they will be in a wide range of colors and patterns.

BARGAIN SHELF

These are still fine lilies, but we do have to make room for newer varieties, and so — Make up your own collections from them.
